WE COMMIT...WE HONOUR...

CludoBits is a leading IT solution provider founded in 2014, offering comprehensive support to various technologies including Datacenter Revamp using the various cutting edge market technologies like Hyper-Converged Infrastructure, Virtualisation, Enterprise Storage, DR-BCP & Security Solutions, Cloud, and overall Data Lifecycle Management.

The new technology revolution and the fourth industrial revolution, also known as Industry 4.0 has been re-shaping the business landscape since the last decade. With a strong focus on innovation and quality, CludoBits has established itself as a team of trusted advisors for businesses seeking reliable and efficient IT solutions with major emphasis on coveted fields like Cyber-Security, Robotic Process Automation, Advanced Audio-Video Solutions to name a few.

We at CludoBits, help companies and organizations to accelerate their IT/ Digital journey from the beginning to the end. We work with you to determine your current level of digitalization and develop a customized and personalized digital strategy and IT roadmap that will lay the foundation for real competitive advantage in your industry and accelerate your business growth.

ABOUT CLUDOBITS

MISSION

Our Mission is to become the go-to technology solutions provider for our clients, proactively addressing their needs with reliable, adaptable, and cutting-edge products and services. We aim to establish ourselves as leaders in our industry, delivering operational excellence in every aspect of our business.

VISION

Our Vision is to become the top performers in our field, prioritizing excellence over size, with a commitment to nurturing our team members' skills and abilities. We strive to deliver superior services and solutions to our customers, establishing ourselves as a trusted and reliable partner in the industry.
